## 209 AND 209HH PLANERS

- 5HP motor and 20" planing capacity for heavy duty work
- Fully enclosed base cabinet with integrated casters for shop mobility
- Cast iron table with extensions creates a big 55-1/2" x 20" working area
- Four feed speeds - 24 and 31 FPM, 16 and 20 FPM with gear change - provides versatility
- Feed rollers and cutterhead supported by full cast iron head assembly for rigidity

### 209HH

The Byrd® helical cutterhead with 99 four-sided knife inserts provides smoother, quieter cutting and finer finish than conventional systems

## PM1800 BANDSAWS

- Blade tension lever has full tension, partial tension and release settings for easy blade changes and tracking
- Micro-adjustable, virtually tool-less bearing guide system gives close blade control while reducing friction
- Special grooved thrust bearing stabilizes smaller blades
- Heavy duty T-style rip fence has adjustable aluminum resaw fence
- Large 24" x 24" cast iron table
- 2-inch diameter solid steel pin for resaw work
- 18-inch resaw, and 18-inch blade to column capacity
- Magnetic starter with power indicator lamp and jumbo stop
- Chrome knobs and handles ensure solid grip and firm locking of parts
- Computer balanced cast iron wheels reduce vibration
- Dual 4-inch exhaust ports for effective dust and chip removal
- Adjustable miter gauge with stops

## 719T TILT TABLE MORTISER WITH STAND

- Sturdy cast iron construction with precision-machined column and table
- Quick position table mounted swiveling vise accommodates angled work pieces
- Feed lever features size positions allowing for quick adjustments
- Table and fence tilt from 0 to 35° for angled mortises
- Gas cylinder controlled rack and pinion system for smooth head raising and lowering
- Hinged chuck door allows easy access for quick bit changes
- Quick adjust depth stop for uniform mortise depths
- Provided 5/8", 3/4" and 1-1/8" bushings allow multiple chisel shank sizes
- Handwheels control smooth linear and cross table motions
- Adjustable work stop for repeat cuts

## PM701 BENCHTOP DELUXE MORTISER

- In-line depth stop allows stopping at pre-set depths without racking the bit to the base
- Heavy-duty reversible handle can be installed to either side of the head without tools
- Stock hold-down with a double lock system, top and side, to eliminate slippage of workpiece
- Quick action cam lock will quickly lock fence in position with one 90° movement
- 2 integrated bit and chisel spacers for quick set up
- Large work surfaces on both table and fence for greater stability and accuracy
- Large, hinged chuck door with magnetic catch for rapid access to the chuck
- Rack and pinion design for simple fence adjustments

## PM1200 AIR FILTRATION SYSTEM

- Two-filter system traps particles as small as 1 micron
- Remote control operates on radio frequency for wider range of effectiveness
- Timer has nine settings, for up to nine hours of continuous operation
- Inner filter has fine mesh pockets for high efficiency, can be blown clean
- Electrostatic outer filter is disposable
- Diffusion filter disperses exhausted air
- Four eye bolts allow suspension from shop ceiling
- Indicator lights up after 200 hours to remind user to replace filters
- Three blower speeds to modify air flow
- Filter guards install and remove easily without tools for quick access to filters
- Two carry handles for portability
- Fully enclosed motor has overload protection for long service life

## PM2700 SHAPERS

- Integrated caster system built into the cast iron base for instant shop mobility
- Spindle height digital readout for making fine incremental adjustments on multiple passes
- Heavy duty 30" x 40" precision ground tabletop for smooth stock feeding
- Convenient quick lock belt tensioning for easy speed adjustment
- Industrial fence system with fine adjust dials for more precise positioning
- 3HP totally enclosed motor offers plenty of power
- Two spindle speeds (reversible) for a variety of work
- Superior clear cutter guard promotes safety, allows observation of the entire cut
- Table predrilled and tapped for feeder mounting in two locations
- Fence has dual featherboards for work holding

# PM1300TX AND PM1900TX DUST COLLECTOR

- TurboCone™ improves chip separation and collector bag packing efficiency; eliminates premature filter clogging
- Remote-controlled digital timer can be programmed for up to 99 minutes
- 2-micron canister filter offers over six times filtering surface area of standard bags
- All-metal duct construction for rigidity and improved air flow
- Dual 4" dust ports for simultaneous collection from two machines
- 10 cubic feet capacity collection bag reduces number of bag changes
- Four swivel casters for shop maneuverability
- PM1300TX includes a 1-3/4HP TEFC motor
- Magnetic starter
- Canister system includes set of 5 clear collection bags, bag system has cloth bag with view window
- Swivel casters

## BETTER PERFORMANCE CLEANER WORKSHOP

**Less Clogging.  
More Collection.**

The Powermatic Turbo Cone™ prevents 98% of wood chips from entering the filter area.
